Dr. Gautam (Vini) Khurana is a neurosurgeon at C.N.S. Neurosurgery and a consultant to the field of neurosurgery. He obtained his Bachelor of Medicine and Surgery from the University of Sydney's Medical School in 1995, with Honors, and was named the Robert Craig Prize for Surgery. Dr. Khurana's research focuses on microsurgical techniques and surgical procedures for vascular disorders and brain tumors affecting the skull base and brain. Trigeminal neuralgia microsurgery (MVD), awake craniotomy for tumors & Cavernomas, and cervical artificial disc surgery (Arthroplasty) are his main specialties.

Key Differentiators:

- Brain and spine surgeon
- Member of the Neurosurgical Society of Australasia (NSA)
- Expert in Awake craniotomy for tumours & cavernomas

Customer's Review:

Dr Khurana ('Dr Vini') is a wonderful surgeon who treats his patients with the utmost care and respect. Throughout the whole process, I felt I was in safe hands. I had a complicated two-stage surgery, with an ACDF at two levels in my cervical spine, followed by a posterior foraminal decompression because of bone spurs. I'm so happy to say I'm now pain-free and can sleep soundly at night. Thank you so much Dr Vini, your professionalism and patient care were without fault and you truly are a gifted surgeon!!
